

(Shipper Name)
Notice of Requirement to Comply
With
California Air Resources Board's (ARB)
Transport Refrigeration Unit (TRU or reefer)
Airborne Toxic Control Measure (ATCM)

(Shipper Name) requires all carriers and transportation brokers to comply with the regulations of the California Air Resources Board's Transportation Refrigeration Unit Airborne Toxic Control Measure.

As a carrier and/or broker supplying transportation services to (shipper name) you must certify that only reefers which comply with ARB's TRU ATCM in-use performance standards will be dispatched to the (Shipper Name) for loading.

If you are a California based carrier you are required to be registered on the ARBER system. If you are based outside of California, and have not registered with the ARBER system, we strongly recommend that you do so in order avoid any potential rejections and/or delays in loading.

Please be advised that effective on or before January 1, 2013 our bill of lading will contain the following statement, which is your further certification of compliance:

**Carrier or its agent certifies that the TRU equipment furnished for loading this shipment
is in compliance with California TRU regulations**

Your driver's signature on the bill of lading is an acknowledgement of the above statement and certification that equipment being offered for loading by (shipper name) is in compliance.

Please sign return a copy of this letter certifying your organizations acceptance.
